2019 Yampa Valley Community Foundation
Community Grant Guide

Connecting Donors to Community Needs
Dear Friend,

There are no shortage of wonderful ways to give back in the Yampa Valley. We ask nonprofits each year to request funding for their most urgent needs. Grants may be awarded for innovative programs demonstrating community benefits in five focus areas:

Arts & Culture * Education * Health & Human Services
Environment * Recreation

The grant guide that follows summarizes what we have received in 2019.

During our annual granting cycle, community members and our Board of Trustees rigorously review the grant requests. Our committee faces truly challenging decisions. We strive to stretch our limited resources in support of the programs most responsive to our community’s immediate needs.

We hope the Grant Guide inspires and offers focus to your local charitable giving. As your partner in philanthropy, we invite you participate in our 2019 community grant cycle.
