

2018-19 Passport Club Locker Room Policies

- **Do not share the door combination.**

Each Passport Club membership will include two identifiable key cards.

If you lose your swipe card, we will be able to deactivate it and issue a replacement.

The SSR&C security office will have 24 hour access to the locker room.

- **Accompany all guests in the locker room.**

- **Be certain young children are under adult supervision.**

- **Store all skis and snowboards in locker. Please take any extra equipment home or have it stored with your ski rental company.**

For safety reasons, we can no longer store boots or any other equipment on top of the lockers. Thank you for storing your boots in lockers or under the benches in the aisles. Skis and snowboards can be kept in lockers or in the rack next to the front door.

- **Lost and Found** - A basket is located on the window sill for small items such as hats, goggles, and gloves.

- **The electric outlets are available on a first come basis for boot warmers. Please do not unplug other people's boots.**

- **Parking is first come- first serve.**

A parking attendant will be on duty starting the first day of the season.

The attendants have a system that helps them keep track of spaces. Please assist us in our partnership with the SS&RC and do not pull into the garage if the FULL sign is out.

Free parking is available both in the Knoll Lot (walking distance to the locker room) or in the Meadows Lot which has frequent shuttle service to and from the base area.
